The Glass Artists Fellowship is announcing its 27th Annual "Glass At The Gardens" show September 13 – September 22, 2006 at the Denver Botanic Gardens; 1005 York Street, Denver, CO, 80206, (720) 865-3500.

The Glass at the Gardens is a ten-day, juried show showcasing premiere glass artists specializing in original glass work in the areas of cold work (leaded stained glass, copper foil and mosaic panels), warm work (kiln work) and hot work (torch and furnace work). This show highlights the best in glass art from around the nation and is arguably one of the top two glass art shows in the nation. We are very honored to have Glass at the Gardens held annually at the Botanic Gardens in Denver, Colorado. Our theme this year is "*Organic Explorations*".

Since 1979, the Glass Artists Fellowship has served as a forum for glass artists, initiating opportunities for education, sharing, promotion and friendship. Its fundamental goals are accomplished through newsletter distribution, seminars, workshops, guest speakers and field trips to studios to experience various techniques in art glass. Visit our website, www.glassartistsfellowship.com for membership information and entry forms for Glass at the Gardens.
